REPORT OF THE BOARD OF EDUCATION

The Board of Education in presenting its annual report to the citizens of Hollis feel that they can give assurance that an adequate return has been given for the money expended, inasmuch as the schools have been successfully sustained by an efficient corps of teachers uninterrupted by sickness or any prevalent distemper or disease. The teachers of last year were retained excepting Anna L. Boynton who resigned and her place was taken by Miss Sadie M. Kenney of Milford.

At the end of the Autumn term Miss M. Louise Stratton tendered her resignation which was reluctantly accepted as her past work had been so satisfactory. The vacancy caused was filled temporarily for three weeks by Miss Martha L. Goodwin until such time as Mrs. Helen Leighton could assume the duties of the place. It is hoped and expected that she will continue the work for the coming year.

The Board, believing that greater interest is awakened and more efficient work performed in larger schools, have thought it unwise to keep up schools when there would be less than ten scholars and in those districts where the number would have fallen below ten, have caused the children to attend the Center school and transportation has been afforded to such as were entitled to it. It is one of the most vexatious matters to regulate transportation so it will be reasonably satisfactory to all. Sometimes people seem to lose sight of the fact that if much of the school money is used in transportation to that extent the terms of schools must be shortened, but we are pleased to note that a greater part of the people are considerate and willing to accept modest sums for affording transportation. Yet there are individual instances where a little more personal effort and sacrifice for the public good and the good of the schools would be appreciated.

There were but five in the graduating class of the High School last year and the class for the current year will be small but the Junior classes are much larger. It is gratifying that the people continue to take a lively interest in the school which has manifested itself in many ways. We are hampered for lack of funds to make

the school all that could be desired. We need more money for instruction, longer terms and instruction in various branches that are now necessarily omitted. It would be a splendid thing for the town if our School fund could be increased by bequests or otherwise to the extent of \$30,000, the income of which could be judiciously expended in keeping up and raising the standard of the school, and what could be better than to help place the school on such a basis, where its future for all time would be secure and the children of Hollis guaranteed suitable training, sufficient to make them useful and prominent citizens of the republic. We have no doubt but that in time other names will be added to those of Mary S. Farley and Judge Worcester on the roll of honor as public benefactors.

Through the effort of the Alumni of the High School an excellent portrait of our late honored townsman, Henry A. Goodwin, has been hung on the wall of the Schoolroom in recognition of his devotion to the interest of the school and as an incentive to good citizenship.

Something has been done during the year to place the grounds and fences of the Center school in good condition, so that now the building and its surroundings are such as to be a credit to the town and a pleasure to all who attend school there.

FRANKLIN WORCESTER,
JAMES E. HILLS,
BERTHA M. HAYDEN,

School Board.
